Honorable Governor Judy Martz  
State Capitol  
Helena, Montana 59620

Re: House Bill 452 by Holly Raser, TAX CREDITS FOR CONTRIBUTIONS TO SERVICES FOR DEVELOPMENTAL DISABILITIES

Dear Governor Martz:

I regret to inform you that your amendatory veto on the above referenced bill, which was received by the Senate on Friday April 25, did not get on the Saturday agenda for 2nd and 3rd reading due to my error. I very much regret this mistake. Therefore these Governor Amendments were not adopted (or rejected) by the Senate.

In consultation with the Code Commissioner, there are two possible courses of action:

1. You can sign the bill without the amendment. He thinks possibly the Department of Revenue could handle the lack of clarity with administrative rule.
2. You could veto the bill because of the identified problems.

I have always lived in terror of doing something like this in the flurry of the final hours, but until now it had not happened. I am returning the enrolled bills for your consideration.

Sincerely,

Rosanna Skelton  
Secretary of the Senate

HOUSE JOURNAL  
FIRST LEGISLATIVE DAY - JANUARY 6, 2003

"You now have an honor and a responsibility few of our fellow citizens ever have the opportunity to experience. Public service -- serving the people -- is the most noble and necessary of services.

I began my involvement in public service 32 years ago as a 23-year-old freshman from Flathead County. I sat where my friend Representative Rod Bitney sits now. I was filled with awe at the magnificence of this chamber, probably the most historic room in the state of Montana. It was in this chamber that many of our state's most notable leaders began their public service. Senator Lee Metcalf once sat where Representative Paul Clark sits now. Governor Tim Babcock once sat where Representative Scott Mendenhall sits now. Congressman Pat Williams once sat where Representative Eileen Carney sits now. Chief Justice Jean Turnage sat where Representative Scott Sales sits now. Senator Max Baucus sat where Representative Gary Forrester sits now. Governor Hugo Aronson sat where Representative Dave Lewis sits now. Senator John Melcher sat where Representative Gary Mathews sits now. Congressman Denny Rehberg sat where Representative Don Roberts sits now. Congressman Wes D'Ewert sat where Representative Bernie Olson sits now. Governor Tom Judge sat where Representative Steve Gallus sits now. And Governor Ted Schwinden sat where Representative Carol Juneau sits now. I have no doubt that future great leaders of our state are present in this chamber today.

In that regard I know you will work very hard at the great task before you. Public service means serving the public. Doing so with fairness, wisdom, and insight has never been an easy job. It requires thoughtfulness, courage, a lot of patience, all while being tired.

Our system is government by the consent of the governed. The people of your districts conferred on you a great honor when they chose you to represent them in this great council chamber of the State of Montana. It is by their will that you are here. Never lose sight of them in your deliberations.

We are all proud of our principles and we are guided by them. But our Constitution requires that the people's business must be finished and the budget balanced in 90 legislative days.

That means there will be some victories and some defeats and many compromises in this room as this legislative session unfolds. All members here are entitled to their say. No members are entitled to their way.

Respect one another. Learn and listen respectfully, especially to those with whom you disagree. Work hard for your people and your principles. Be prepared. Be reasonable, use common sense. Be of good will.

Many generations of legislators have sat where you sit now. Most of them learned from and grew with their experience here. Most of them enjoyed this great process and adapted to it. So will you.

If I can be of service to you as one who spent over a quarter of a century serving in this chamber and in the other legislative chamber, I stand ready to do so. My door is always open to you and all are welcome.

I wish you well in your important work."

Secretary of State Brown introduced the Honorable Karla Gray, Chief Justice of the Supreme Court of Montana. Chief Justice Gray administered the following oath of office:

"I do solemnly swear that I will support, protect and defend the Constitution of the United States and the Constitution of the State of Montana and that I will discharge the duties of my office as a member of the House of Representatives with fidelity, so help me God."

Secretary of State Brown informed the members of the House of Representatives that he had been advised that all oaths

House Chambers  
State Capitol

House convened at 1:00 p.m. Mr. Speaker in the Chair. Invocation by Representative Mendenhall. Pledge of Allegiance to the Flag.

Roll Call. All members present, except Representatives Brueggeman, Forrester, excused. Quorum present.

Mr. Speaker: We, your committee on Legislative Administration/Bills and Journal, having examined the daily journals for the fourth, fifth, and sixth legislative days, find the same to be correct.

Bookout-Reinicke, Chairman

The Speaker introduced the Expressions of Silence, a performing group of 30 middle and high school students from the Montana School for the Deaf and the Blind. They presented contemporary songs in their own language, American Sign Language. The group was directed by MSDB teachers Mrs. Jennifer Wasson and Ms. Dessica McKeehan. The goal of the group is to provide students with an opportunity to learn new songs, signs and choreography while having the opportunity to increase their personal self-esteem. The Expressions of Silence performed 2 numbers, "God Bless the USA" and "Love in Any Language" which has become the signature song of the group in an effort to promote a sense of humanity and good will to all individuals regardless of their disability.

(8) The services provided under this part may be only those that are medically necessary and that are the most efficient and cost-effective.

(10) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

(11) If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program.

(12) Community-based medicaid services, as provided for in part 4 of this chapter, must be provided in accordance with the provisions of this chapter and the rules adopted under this chapter.

**MOTIONS**

Majority Leader Brown moved that the House recess until 6:10 p.m. for the Governor's State of the State address and that, following the Governor's address, the House stand adjourned until 1:00 p.m., Wednesday, January 22, 2003. Motion carried.

House recessed at 3:20 p.m.

**SPECIAL ORDERS OF THE DAY**

House reconvened at 6:10 p.m. Mr. Speaker in the chair. All members present. Quorum present.

Sergeant-at-arms Clark escorted the Senate into the House chamber.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

Speaker Mood introduced President Keenan and yielded the chair to him.

Senator Thomas moved that the President appoint an escort committee of four to notify the Governor that the Senate and House of Representatives are in joint session and ready to receive her State of the State address. Motion carried.

President Keenan appointed Senator Sprague, Senator Nelson, Representative Andersen and Representative Clark to escort the Governor to the House chamber.

The colors were posted by Captain Flaherty and members of the Montana National Guard. President Keenan led the joint session in the Pledge of Allegiance.

Sergeant-at-arms Clark escorted the members of the National Guard from the chamber.

Invocation was given by Joe Morstein of Dillon, brother of Governor Martz.

Sergeant-at-arms Clark admitted the escort committee and Governor Martz into the House chamber. President Keenan introduced Governor Martz to the joint session, and the Governor gave the following speech:

Thank you very much. President Keenan, Speaker Mood, Lt. Governor Ohs, Tribal Chairmen, Distinguished members of the House and Senate, fellow elected officials, honored guests, my fellow Montanans:

What an honor and privilege it is to address you tonight to discuss our administration's continued commitment to strong families, faith in each other, freedom for all, and a prosperous future.

We are in a dynamic and changing time.

While our nation experiences the continued challenges of an economic recession... Montana is moving forward.

Granted, we have our differences and problems to solve. It's that diversity that makes us strong. But first and foremost, we have much to be thankful for.

I am so thankful for family. Montana's first family - Harry, Justin, Stacey, my mom and dad in Billings, and my brother Joe, who has joined me here this evening. I'm thankful for friends, neighbors and our fellow Montanans.

We are so blessed in this Montana with a strong work ethic and resilience demonstrated by our dedicated public servants.

We are blessed with great teachers, whose hard work ensures that our children receive an outstanding education, and our public and private schools of higher education are recognized for their cutting edge research and programs.

We are blessed with quality medical care for our citizens.

We are blessed with outstanding military personnel, police, EMT's, firefighters and others who work every single day to keep us safe and protect our freedom at home and abroad. To all these men and women, we extend a very special thanks.

We are blessed with great athletes like our Cats and our Griz, who are among the best in the country and... our Fighting Saints are Number One!

Finally, and most importantly, we have a great faith in each other.

Are we blessed? You bet we are. Because we're Montanans... first, most and always.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

We are gathered in this chamber as representatives of the people.

And while we come with different ideas and different views, I have faith that we will find the common ground and build a better future for our Montana families.

That is what the people expect of us. We owe it to them – and ourselves.

Our job is to find solutions – not place blame.

We are faced with a daunting task. But I have faith that we will prevail... because, no matter our differences, we are all Montanans.

Despite the budget clouds we face together, there are brighter days in the forecast.

State of the Economy

For example, Montana's unemployment rate stood at only 4.4% in November – well below the national average of six percent and the lowest for a November in 30 years. And wages rose over 4% - nearly double the rate of inflation.

Job growth in Montana is well ahead of the national economy. In fact, 9,000 new jobs were created in the state since November of 2001. And, according to economy.com, we now rank 4<sup>th</sup> nationally in projected job growth.

Even when faced with our budget difficulties, Montana's economy as a whole reflects our character to persevere. We will move our economy forward. We're making progress... and why?

Because we have a workforce that is prepared for the jobs of the future.

Because we have the foresight and the commitment of individuals in this room who know that we need to create an environment for business to grow – and for individuals to prosper.

Because we have a can-do attitude. Montanans can beat the odds... and turn that attitude into action.

And we must do more.

Because, when it comes to our economy, 'good enough' is never enough. Our unemployment rate may well be only 4.4%, but for those who are unemployed it is still 100%.

And many Montanans are still underemployed. These are highly skilled workers, available and ready for good jobs. But we need the jobs here that match those skills.

Because Montanans are what makes Montana great.

So, on their behalf, just as Lewis and Clark began their journey 200 years ago, together, let us take this legislative journey – confident that our state will be better for the efforts we undertake today.

And if the past is any indication... the ingenuity, strength, and fortitude of Montanans will ensure that our future is bright.

Economic Development

When I talked about the state of our state two years ago, I told you that government can no longer be a barrier to business, and since then, we have put the full force of my office behind ensuring that businesses are not hindered,

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

but instead assisted by their government.

With your support, we reorganized the Department of Commerce to be more business friendly, and with your support, we created the Governor's Office of Economic Opportunity.

With the framework for change in place, we are creating the government environment necessary for businesses to stay and grow here... because government doesn't create jobs; people do.

We've teamed up with State Auditor John Morrison to encourage more venture capital investment in our state.

We redesigned our business website, bizmt.com, to provide critical information to the business community... and through discoveringmontana.com you can register your business through Secretary of State Bob Brown's office, and file your taxes with the Department of Revenue.

Why is this important? Because, in this era of dramatic change and e-commerce, information must be readily available.

This technology eliminates the barriers of time and distance; and draws us even further into the world economy. And our global opportunities are expanded through the work of our state trade representatives in Japan and Taiwan.

Companies like Smith Equipment of Belgrade and MSE Technologies of Butte have grown their businesses with the expertise of these professionals.

And, along with Senator Jon Tester and others, companies like Timeless Seeds of Conrad are marketing organic ag products to our Pacific Rim neighbors as well, and have established Montana as the premier source for those goods.

We have a wonderful relationship with our neighbors in Taiwan, and we are honored to have with us this evening Jack Chiang, who is the director general of the Taipei Economic and Cultural Affairs Office in Seattle. Please welcome Mr. Chiang.

Another element of economic progress is tourism. Out-of-state travelers add nearly ½ million dollars per day to our state's economy.

That's powerful economic activity.

I want to thank those Montanans involved with tourism and recreation who had the foresight to plan ahead and identify efforts to improve Montana's economy.

Our economic development efforts are sharply focused, and we have outlined major initiatives for our state in the coming years.

These initiatives are built on hard work – not quick fixes. They are crafted with an eye toward what Montana should look like in two decades... not just two years.

With your support, we will move Montana's economy forward.

First, we'll focus our economic improvement resources on those industries that bring a competitive advantage to our great state.

We'll provide our citizens with the training needed to be even more productive workers, earning higher wages.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

We'll focus on strengthening relationships between private industry, the university system and government to meet the needs of our business community.

And, we must create a competitive tax and regulatory structure to ensure Montana businesses remain here and grow, because as businesses prosper... Montana prospers.

In order to accomplish these goals, I ask you to pass four bills.

The first, requested by Senator Royal Johnson and presented by Representative Monica Lindeen, will enhance the ability of businesses to fund work-force training.

Senate Bill 115, sponsored by Senator Dale Mahlum, will extend the statutory appropriation for key economic development programs.

Senate Bill 131, sponsored by Senator Greg Barkus, provides better access to the dollars needed for businesses to expand by allowing the Board of Investments to better support local economic development organization and local revolving loan programs.

And House Bill 76, sponsored by Representative Joe McKenney, helps state and local governments create a truly regional approach to job growth.

Montana is a state in transition. But transition does not mean we leave behind the industries that brought us here.

Transition means transformation. We are transforming our traditional industries to a new economic model, a model that is built on the creativity of our people and the responsible use of the resources God gave us.

And, we are attracting new partners. Partners who seek a location with a quality workforce, good schools, safe communities, affordable energy, efficient government and quality medical care.

One of those businesses is Anheuser Busch. They have made a commitment to provide top quality barley for their products – and thanks to the concerted efforts of state and local governments, they are now sourcing that barley in Sidney.

And there are others.

Companies like Montana Flour and Grains in Choteau, John R. Daily in Missoula, and Western Sugar in Billings are providing quality jobs as well.

As we support existing businesses, we also welcome new ones. Companies such as the Montana Shepherd's Market in Hamilton, Montana Legend Brand Meats in Roscoe, and Montana Natural Lamb in Reedpoint are joining with us to develop innovative value-added ventures all across Montana.

These businesses not only process the fruits of our land, but the products of our people's hard work as well.

And, tonight, after more than a year of work by a new business to Montana, in coordination with the Montana Department of Agriculture; the Governor's Office of Economic Opportunity; the Departments of Commerce; Natural Resources; Environmental Quality; Transportation; Fish, Wildlife and Parks; and local economic development groups, the City of Great Falls, Cascade County and our office, I'm excited to announce that Froedtert Malt, a Division of International Malting Company, LLC has made the decision to locate a malt facility in Great Falls, Montana!

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

This is a \$75 million project with a 16 million bushel capacity. The facility will have an annual impact of \$64 million to the state's ag economy, bringing good-paying jobs to Great Falls, Montana.

Please join me in welcoming David Brunette, the company's director of manufacturing operations, and in thanking International Malting Company for choosing Great Falls as their business home. The commitment of the community, and state and local government to this project truly shows that hard work and cooperation pays off for the citizens of our great state.

Natural Resources

And, as we work to strengthen our economy, we will continue to support our traditional industries - those that support our logging and mining families, our farmers and ranchers.

We WILL NOT forget the industries that built this state, and we are working closely with President Bush to bring common sense back to forest management.

We must manage our forests to reduce the risk of catastrophic fires. We will achieve that goal by giving the right tools to the forest managers and private businesses.

In the process, we will bring back good logging jobs to communities like Hamilton and Stevensville, Seeley Lake and Frenchtown.

As chair of the Western Governors Association, I am bringing a Healthy Forest Summit to Montana in June. Western governors will come together to focus on a path we should take to improve the health of our forests and the health of our communities.

We must also be a part of our nation's energy solutions, and we are actively seeking ways to utilize our resources in an environmentally responsible manner.

I support the responsible development of coal bed natural gas, and I am confident that all stakeholders will work together to ensure that it's done right.

In the last year, we have seen plans to develop power plants in Great Falls, Butte and Roundup that will create jobs, and provide additional energy to Montana and our country. We also received the patent to the Otter Creek Tracts - that are a source of quality coal. I have established an internal working group to address the issues and opportunities surrounding coal development on those tracts, while maximizing revenues for our school children from their responsible development.

Two years ago, plans were in motion to ban all snowmobiles from Yellowstone National Park. Since then, we have worked with the Bush Administration to allow cleaner, quieter snowmobiles back in the Park, so we can all experience the beauty of this national treasure in its winter splendor while protecting its incredible resources.

Tax Reform

As we continue to make room for both traditional businesses and the companies of a new economy, we must recognize that our current tax structure overly burdens both.

Two years ago, I said we would work to make Montana's tax structure conducive to job growth and economic success. Tonight I am asking for your passage of our tax reform proposal that restructures our tax policy and lets our visitors pay their share.

As you know, Montana has one of the highest capital gains tax rates and the highest stated income tax rate in the nation. Our plan reduces capital gains rates, encouraging more investment in Montana.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

Our plan reduces personal income taxes by an average of 10 percent for all classes of Montana taxpayers, so hardworking families can keep more of what they earn.

New Mexico's new governor - Democrat Bill Richardson - is calling for cuts to their 8.2% income tax rate, saying it's too high. If their 8.2 is too high, what does that say about our 11 percent?

We will offset those tax reductions with a limited tax on certain items that will be paid in part by Montanans, but to a large degree by nonresidents, who enjoy the treasures of our great state.

Our plan also includes a voter-approved local-option tax to help communities relieve the property tax burden on local residents, and to provide opportunities for local economic development.

As we address this plan, we will work with you to help mitigate the effects of property tax reappraisal for our Montana families.

I stand firm in my resolve. I want permanent tax reform that creates an environment for higher-paying jobs that will be a welcome relief for Montanans. We rank 46<sup>th</sup> in per capita income, and if we don't reform our tax structure we will still be there... or lower... a decade from now. That is simply not acceptable.

Our plan welcomes and keeps businesses here, rather than shutting the doors to growth. It provides opportunities for investment, rather than taking money from our small employers, investors, ranchers and farmers and entrepreneurs, because when they succeed, Montana succeeds.

#### Higher Education

But even with tax reform, economic development does not happen without a quality workforce. Montana's University system is a critical part of creating a high quality workforce.

I would like to welcome Carrol Krause as the interim commissioner of Higher Education, and thank former state representative Lila Taylor for agreeing to serve on the Board of Regents. Lila's strong background in our state's largest industry – agriculture – will be a welcome addition to the Board.

I have faith that, with their guidance and that of the other regents, we will strengthen our future workforce and our future leaders.

And, we will continue to transfer technology from the University System to businesses that create the jobs.

Our quality educational system is improving our workforce; and technology is compressing the miles, enabling Montana companies to do business globally.

#### K-12 Public Education

At the same time, we must do everything possible to maintain a quality K-12 education system for our children.

Education is and always will be a top priority for me and our administration. I have faith that we can work together to preserve and strengthen Montana's excellent education system.

Lt. Governor Karl Ohs has been our administration's leader on education issues. Karl, thank you for your work on behalf of our state's children.

Two years ago, I asked the legislature to focus on the 3-R's – recruiting, retaining and rewarding our outstanding teachers. There is no greater profession than the education of our children, and no greater gift an individual can give than to positively impact the life of a child. Let's all applaud our state's teachers for the job they do.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

We must encourage the best and brightest teachers to stay here. We have partnered with School Superintendent Linda McCulloch to bring forward legislation to help repay student loans for new teachers who choose to make Montana home.

Representative Alan Olson's House Bill 107 does just that, serving as a vehicle to help new teachers like Jody Magerius, who was born and raised in Conrad, to stay home, rather than seeking a position in another state.

Please join me in welcoming Jody, and seeing that she stays here in Montana.

I thank the House of Representatives for acting quickly on this legislation, and I urge the Senate to do likewise.

We can also retain our talented teachers by addressing the rising costs of healthcare.

On behalf of educators in Montana, I urge you to send me HB 302, sponsored by Representative Dave Lewis and developed in partnership with the education community. This legislation creates a statewide teachers' insurance pool to keep costs down for our schools.

When it comes to our schools, dollars alone don't always make the difference.

Funding is important, and so is funding reform. I ask you to pass legislation sponsored by Representative Roy Brown to help ensure that schools faced with declining enrollments don't sacrifice a quality education to meet their fixed costs.

I am also asking you to pass legislation confirming your support for a school renewal commission. My office will sponsor this commission jointly with the Board of Public Education. This group will be charged with offering substantive solutions to the next legislature on every way schools operate, building on prior studies to get the job done for Montana students.

Please join me in thanking the Board's chair, Dr. Kirk Miller, and all board members for their dedication to students, parents and educators all across Montana.

Our children are the future of this state, and I want to thank the legislative leadership for placing such a high priority on K-12 education that you have restored funding to my budget levels... because we will accept nothing less.

We also need the help of our students in teaching one another. That is why I'm pleased that, with the partnership of student leaders, we will hold a Youth Tobacco Prevention Summit in Helena this spring. Working together, we will ensure a tobacco-free graduating high school class by 2015.

**Substance Abuse**

But, as we all know, substance abuse spreads far beyond our children, and affects the lives of all too many Montana families.

Every day, we read and hear of tragic stories involving the use of methamphetamines and other drugs. I support Senator Mike Cooney's legislation to toughen our meth laws and protect our children.

In partnership with Attorney General Mike McGrath, we formed the Alcohol, Tobacco and Other Drug Control Policy Task Force under the leadership and guidance of Senator Duane Grimes.

Their creative and unique ideas have set the stage for a proactive approach to reducing substance abuse in Montana.

We can all agree that the safety and health of our Montana families is too important for partisanship.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

That is why I'm asking you to pass House Bill 195, sponsored by Representative Cindy Younkin, which strengthens DUI repeat offender penalties. I also urge your support for Senate Bill 13, the .08 legislation and Senate Bill 39, which places open container laws on the books, both of which are sponsored by Senator Dale Mahlum.

These bills toughen Montana's drunk driving laws, with the goal of ensuring that our roads are safer for Montana families and visitors.

We simply must stop the unnecessary loss of lives on our roadways.

#### Healthcare

We can all agree that Montana families deserve an unsurpassed quality of life. We must prioritize health and human service needs, funding what impacts people's lives the most. We must maximize the use of federal funding and address rising healthcare costs.

As we work to address health care needs, I ask for your consideration of legislation to implement a senior discount prescription plan in Montana.

We must also address the wise use of our Medicaid dollars. That is why I am creating a Medicaid Reform Commission, to be headed by Dr. Peter Blouke to address growing needs and escalating health care costs.

We simply must not falter in our efforts to make health care more affordable for Montana families, and to provide for those most in need.

Our efforts must also extend to those with mental illnesses. Our budget addresses the need for more community-based programs for the mentally ill by limiting the population at the Montana State Hospital in Warm Springs, and creating three regional programs.

In addition to these healthcare issues, our hospitals and clinics are faced with other tough challenges, not the least of which is the shortage of qualified healthcare workers.

I established a task force to address those shortages, and in response to their recommendations, I have committed \$120,000 of federal money to partner with Superintendent McCulloch to provide a healthcare career specialist in her office. OPI will also provide \$30,000 of federal money over the next three years, and we are asking private industry to support this effort as well.

#### Corrections

We have worked hard to find ways to make government operate more efficiently on limited dollars, while protecting the safety of our citizens. In order to address budget challenges in the Department of Corrections, for example, we initiated a supervised release program for those who have been committed to the Department of Corrections by the court system. We set in place a system of checks and balances before implementing this program – and it's working. To date, our return rate is only 7% - much lower than the normal rate of 36%.

#### Milltown Dam

As we care for our people, we must also care for our land. The ways to address our environmental challenges need not be difficult.

The health of our families, and communities; the health of our environment and our wildlife – these must come first.

That is why tonight, I am announcing that I am placing the full support of my office behind removal of the Milltown Dam at Bonner. It's simply the right thing to do.

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

At the same time, I will continue to press Arco, Northwestern and the Environmental Protection Agency to ensure that the needs of the local community are met.

Native Americans

In this great state, there are few who have more of the historical background about how fragile our landscape is than our first Montanans.

In the past two years, I have traveled to and met with all tribes located in our state's borders to ensure that their voices are heard, and that we work together.

I involved tribal representatives as we addressed our healthcare budget challenges.

And, tonight, we are announcing a new award. The Governor's Award For Excellence in Cultural Education, to be presented annually to the school that best captures the spirit and intent of the Indian Education For All Act of 1999.

Our students must learn as much as possible about the cultural background of their friends and neighbors, and every student needs to know how proud we are of our diversity.

Budget

I have faith that everything I have outlined tonight is achievable, based on our combined will and fortitude, and taking into consideration our current budget challenges.

I will do everything in my power to work with each of you and I am confident that you will do the same, because we all have the same vision for our state – one that includes family, faith, freedom and a prosperous future for all Montanans.

President George W. Bush once said, "A budget's impact is counted in dollars, but measured in lives."

Excellent schools, quality healthcare, higher-paying jobs, a clean environment, and the rich diversity of our people are the values we must fight to protect in this tough budget cycle.

When times are tough, we must care first for those most in need. That is why we have proposed a \$93 million one-time transfer from the coal trust fund.

We cannot cut so deep that we cut programs like CHIP, which provides healthcare coverage for over 9,000 Montana children, and we must maintain funding for foster care programs, including tribal contracts.

When times are tough, we must first care for those most in need. That is why I have asked that funding for the breast and cervical cancer treatment program, the Montana Chemical Dependency Center, Medicaid pharmacy benefits for the medically needy, and services for children with developmental disabilities be held intact, and that we fund provider rates to the best of our ability.

My education budget is also consistent with a balanced view of all services provided and needs in the state.

Again... all of these education and human services programs are made possible by a one-time transfer of \$93 million from the coal trust fund.

And, just so it's clear, in conversations with the two national bond rating agencies, Standard & Poor's and Moody's, we've been informed that our coal trust proposal will **not** affect our bond rating.

Montanans support this proposal, and I ask that each of you look deep inside and ask – is this not the right time to

HOUSE JOURNAL  
TWELFTH LEGISLATIVE DAY - JANUARY 21, 2003

make the philosophical leap to help our fellow Montanans in need through these difficult times?

After hours of study and discussion throughout the state, we are confident that this proposal will serve Montanans well.

The budget I'm presenting includes a combination of increased revenue projections, fund transfers and reductions in spending with **no tax increase on hardworking Montana families**, many of whom cannot even afford insurance, let alone pay higher taxes.

But, let me add that nothing is off the table. Just as I am asking all of you to address the coal trust fund transfer, I will look closely at every idea that you bring forward. I am confident that, at the end of the day, we will come to a solution that is best for the people we serve.

Conclusion

Much has been entrusted to us, and much is expected.

Let us reach across the aisle and do what is best for all Montanans. Let's cooperate.

Everyone has a role to play... because everyone is a member of our Montana family. We all stand to gain... or we all stand to lose.

Let us not be afraid to lead from our hearts.

In early December, I was in Butte and met a 5-year-old boy by the name of Dyllan Lane. As he was walking away with his mother, I heard him say, "Mom – I just met the Gardener."

I laughed... and then I thought – you know, he's right. I am a gardener – truly, we are all gardeners. It is our job to nurture and grow our economy. It is our job to prepare the soil and plant the seeds for future generations, and it is our job to care for all Montanans.

From all corners of this great state, our growth depends on our ability to work together. What we sow today is the future that we will harvest tomorrow. We **are** growing together – from Sidney to Eureka, from Hamilton to Wolf Point, and we are doing so with heart and resolve.

But, what is the heart of Montana? Is it our way of life? Is it our love of family, freedom, or our faith in one another? Is it our dreams of a prosperous future for our children?

It is all of these. But the real heart of Montana is its people.

The agenda I have set before you tonight is worthy of the people of our great state, and worthy of our best combined efforts.

Together we will forge our own future – our own destiny. We must forge it with the hope that... just as today we recognize the valiant journey of Lewis and Clark – 200 years from now, we will be remembered for our dedication to this journey as well.

Thank you, good evening, and may God Bless the great state of Montana.

President Keenan thanked the Governor and called on Joe Morstein to give the benediction.

Governor Martz and dignitaries were escorted from the House chamber by the escort committee.

follows:Speaker Mood, President Keenan, Members of the 58th Montana Legislature, distinguished guests, fellow Montanans, I am honored to address this joint session of the 58th Montana Legislature, and the people of Montana we all serve.

Our beloved state faces particularly challenging times right now, and we must all give the best that is in us--and perhaps a little more--to solve the problems we face. As I said two years ago, when Montana's severe fiscal straits had not yet surfaced, this is a time to renew our commitment to providing the people of Montana all they deserve, from all of us, in our respective roles under the Montana Constitution. I assured you then, and I assure you again today, that Montana's judges have made this commitment. And I know the Governor and this Legislature have done the same.

HOUSE JOURNAL  
TWENTY-SIXTH LEGISLATIVE DAY - FEBRUARY 6, 2003

We must all work together--not at odds with each other--or we cannot succeed; and succeed we must!

There are so many thoughts I'd like to share this afternoon, but time is short and we all have much work to do. So, first, I'll briefly address the structure of Montana's judicial branch of government. Then I need to visit with you--on this one occasion when I can do so face-to-face with all of you at once--about matters pending here which impact the judicial branch. But don't worry--with the scores of court-related bills already in the hopper this year, I promise not to touch on all of them! And, finally, I'll return to my opening theme of our three-branch governmental structure.

You know, courts and the rule of law are the cornerstones of our constitutional republic. Courts are where our citizens bring their disputes for peaceful resolution, rather than taking to the streets in arms. Here in Montana, our citizens are served by a 3-tiered judicial system that has been--and remains--strong, notwithstanding enormous changes and challenges in the last two years. We are strong because Montanans elect high quality judges and justices at all levels to provide them the justice to which they are entitled, without unreasonable delay, under the Montana Constitution. Also, of course, we are strong because--like the other two branches--we have enormously dedicated staff to help us serve all Montanans.

The first level of our judicial branch is the 158 courts of limited jurisdiction--the Justices of the Peace, Municipal Court judges, and City Court judges. These are our local courts, and they hear over 250,000 cases each year, including traffic offenses, local ordinance violations, misdemeanor criminal charges, small-dollar-amount civil actions, landlord/tenant disputes and others. These judges are truly the "front line" judges in our branch, and they are the only courts with which most Montanans will ever have contact. They truly deserve our respect, and our thanks, for the outstanding job they do in handling their enormous case loads in a fair and expeditious manner.

The next level of Montana courts is the district courts, with their 42 judges; and I want to thank the last Legislature again--as I'm certain the people of Cascade and Ravalli Counties do--for adding a new judge to each of those two judicial districts. The statutory water court and workers' compensation court are at this same level in our judicial branch structure. Except for the specialized statutory courts, the district courts are courts of general jurisdiction; they handle every conceivable kind of civil case, all felony criminal cases, judicial review of agency decisions and some appeals from the courts of limited jurisdiction. Our district court judges are also our Youth Court judges. Approximately 30,000 cases are filed in the district courts each year and those cases are in very good hands.

The third level in our judicial branch is, of course, the Montana Supreme Court. The seven members of the Supreme Court--a Chief Justice and six Justices--are the "end of the road" on questions arising under Montana law. Many of our cases involve trying to determine what your intent was in passing certain statutes. And if you think we got your intent wrong, you can--and regularly do--amend statutes in response. We sometimes apply statutes as expressly written, but invite you to revisit those statutes. And you often do. We are also, though, the final protectors of the rights and freedoms Montanans provided directly to each of us when they--not this body and not the Court--adopted the 1972 Montana Constitution.

Our Supreme Court is uncommonly busy, because we must take the appeals anyone wants to bring from the statutory courts and all the district courts across the state. And we are uncommonly productive, because we are dedicated to meeting our constitutional responsibilities to the people of Montana in a quality manner, and as quickly as you give us the resources to accomplish.

With regard to productivity and efficiency at the Supreme Court, both increased in 2002 over 2001. We issued 353 written opinions last year, compared to 316 in 2001. And, at least as importantly, the average number of days from the time a case came "upstairs" to the Court for consideration, to the time an opinion was issued, decreased from 170 days in 2001, to 123 days in 2002. Now that may not seem like a big improvement to you, but it matters greatly to litigants who have a substantial interest in finally having their cases resolved. We accomplished these improvements by making good use of the three new law clerks authorized by the last Legislature, as moved in budget subcommittee

HOUSE JOURNAL  
TWENTY-SIXTH LEGISLATIVE DAY - FEBRUARY 6, 2003

by Senator Stapleton, and which I urge you to reauthorize this year. Please don't let us go backwards in getting Montanans to the "end of the legal road" without unreasonable delay, as required by the Montana Constitution!

In 2002, the Supreme Court also changed some long-standing internal procedures, which allows us to consider more new appeals each week than we had in 2001. We continue to seek additional innovative ways to increase efficiency, without sacrificing the quality of our work. Indeed, we are presently creating a new style of opinion to resolve some appeals more efficiently than ever before. It doesn't go as far as Representative Shockley would like us to go, but I'm pretty sure he'll think it's an improvement!

I turn now, as I must, to legislative-related matters, and highlight those which impact fiscally on the abilities of Montana's courts to meet their responsibilities to the citizens of Montana. First is Representative Shockley's HB 18, introduced at the Supreme Court's request. It's a simple, but absolutely critical, bill which does only two things: it eliminates the sunset on the current court information technology surcharge, and increases the surcharge from \$5 to \$10. There is no general fund impact. The surcharge is pretty much the only source of funding for judicial branch IT, so we not only can't let it sunset, it must be increased to meet the additional and significant IT needs which came over--without any related funding--as a result of state assumption. This bill zinged out of House Judiciary 18 to 0, and received a third reading vote in the House of 99 to 0. I ask the Senate to give HB 18 the same level of support.

Most of the rest of my remarks on legislative matters relate in some way or other to state assumption. When I stood before you two years ago, the courts of Montana were being funded--as always they had been; never luxuriously, but always adequately to meet at least minimal levels needed for the courts to meet their constitutional obligations to the people of Montana. The branch's budget proposals to the Legislature generally contained a couple of decision packages, but they were not highly controversial.

Then came HB 124, the "Big Bill" and SB 176, the state assumption bill. SB 176 was not a bill at the Supreme Court's request; we took no position on it at all. Nor did state assumption receive a lot of scrutiny on the floor of either house, sort of coming in under the wing of the "Big Bill" nearly at the end of the session. In any event, state assumption is the current reality. Conceptually, it's a good idea, and it may well provide opportunities in the future for Montana's courts to better serve all Montanans. At the moment, however, state assumption has made the judicial branch's budget a nightmare. And so, my first request is that you continue to ensure that Montana's courts are adequately funded, in whichever way you ultimately determine is appropriate. State assumption was never intended to hurt Montana's courts or the people of Montana we serve!

The tools to fund the courts are before you. Those tools, starting with the highest adverse impact on the general fund, currently appear to be these:

- 1) Fund the judicial branch's budget request from the general fund. Our budget request is approximately \$18 million over the executive's recommended budget for the biennium, with about \$17.2 million of that amount directly related to state assumption;
- 2) Continue to fund the state assumption-related expenses on a shared state/counties basis by means of a proposal I've offered to the budget subcommittee and a Senate joint subcommittee. That proposal would set aside \$7.5 million each year in the coming biennium for the reimbursement of what we call variable costs; any excess would go to the counties, but the counties would retain fall-back responsibility if the \$7.5 million per year is not enough to cover those costs. This proposal is about \$2.4 million over the executive's recommended budget;
- 3) Return the responsibility for \$17.2 million in state assumption-related costs to the counties under SB 134, which was introduced at the request of the Office of Budget and Program Planning. This bill, and other matters, are currently being researched by the Senate joint subcommittee; or
- 4) Adopt SB 264, which repeals state assumption altogether and may save the general fund over \$22 million.

These decisions are, of course, yours to make. My overriding position, stated simply, is that Montana's courts must not be underfunded as a result of the 57th Legislature's action in adopting state assumption.

HOUSE JOURNAL  
TWENTY-SIXTH LEGISLATIVE DAY - FEBRUARY 6, 2003

My second request is that, in funding the courts, you not allow state assumption funding needs to impact adversely on other Court programs that pre-existed the last Legislature's decision to make the state responsible for district court expenses. It would be totally unfair to force other Court programs to subsidize state assumption, or to refuse to consider the needs of those programs separately from the needs of state assumption. And back to state assumption for a minute, I ask you to authorize the 2.25 administrative FTE requested in our budget proposal. Existing staff simply cannot manage the unimaginable paper blizzard which has engulfed us since state assumption. The result is that the counties are having to wait too long to be reimbursed, and that's just wrong!

The last thoughts I want to share with you on fiscal matters are these: Notwithstanding the recent turbulence resulting from state assumption, the Montana judiciary is fully committed, one and all, both to ensuring that all Montanans have access to justice, and to administering justice fairly and timely. We cannot do it without your support in providing the resources needed to meet our constitutional responsibilities.

Let me close by coming back full circle to the beginning, and talking again about all three branches of government. It occurred to me a couple of nights ago that there are actually more elected judges in Montana than there are members of the Montana Legislature. In addition, the judicial branch has a higher percentage of women among its ranks than the Legislature. These are not significant differences, merely informational tidbits. But there are differences between all three branches that are significant, and perhaps the biggest of those is this: the executive branch and the legislative branch are essentially pro-active branches, while the judicial branch is not. The executive branch is charged with running state government at all times, in nearly every respect. Similarly, the legislative branch currently meets every two years to enact, in a very active way, the laws which reflect the public policy of Montana, and which govern all manner of behavior for both the people of Montana and the private and public sectors of this wonderful state. The judicial branch's role is, in essence, to wait for the people of Montana to bring us their disputes to resolve. Of course, there's never really any waiting involved, given the caseloads at all levels of our branch. But ours is a passive role; our sole existence is to be there for those who need us, and to resolve their problems fairly and objectively under the law. And we are there--as are both of the other branches in their different ways--for the people of Montana!

You know, I'm certain we all agree that our system of government, with its three separate and distinct branches and its system of checks and balances, is the best system in the world. There will always be inevitable tensions between the branches, because those tensions were deliberately created by the framers of both the United States and Montana Constitutions. But this is the place--this Legislature, every two years--where the three branches of government come together to resolve Montana's problems. And I'd suggest to you that the built-in tensions between the branches amount to nothing, when compared with the necessity of working together--in good faith and with good will--to do the best we can for the people of Montana. So let's join together in ensuring that we conduct ourselves with mutual respect and civility. And let's resolve our problems together. If we do less, the people's trust and confidence in government will continue to decrease, and we will have lost this valuable opportunity to show Montanans the inherent greatness of our governmental structure.

In closing, and on behalf of the entire judicial branch, I extend our very best wishes to you as you wrestle through this enormously challenging session.

Speaker Mood thanked Chief Justice Gray for her address.

The committee escorted the Honorable Chief Justice, Justices, and dignitaries from the House chamber.

Senator Thomas moved the joint session of the 58th Legislature be adjourned. Motion carried.

Members of the Senate retired from the House chamber.

"**53-21-127. Posttrial disposition.** (1) If, upon trial, it is determined that the respondent is not suffering

TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 10, 2003

from a mental disorder or does not require commitment within the meaning of this part, the respondent must be discharged and the petition dismissed.

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

- (a) commit the respondent to the state hospital for a period of not more than 3 months; ~~or~~
- (b) commit the respondent to a community facility or program or to any appropriate course of treatment, which may include housing or residential requirements, for a period of not more than 6 months; ~~or~~
- (c) commit the respondent to the Montana mental health nursing care center for a period of not more than 3 months, if the following conditions are met:
  - (i) the respondent meets the admission criteria of the center as described in 53-21-411 and established in administrative rules of the department; and
  - (ii) the superintendent of the center has issued a written authorization specifying a date and time for admission.

(4) Except as provided in subsection (3)(b), a treatment ordered pursuant to this section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

(5) In determining which of the alternatives in subsection (3) to order, the court shall choose the least restrictive alternatives necessary to protect the respondent and the public and to permit effective treatment.

(6) The court may authorize the chief medical officer of a facility or a physician designated by the court to administer appropriate medication involuntarily if the court finds that involuntary medication is necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by the court approves it prior to the beginning of the involuntary administration and unless, if possible, a medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review is not possible, within 5 working days after the beginning of the involuntary administration. The medication review committee must include at least one person who is not an employee of the facility or program. The patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after the beginning of the involuntary administration if medication is still being involuntarily administered. The mental disabilities board of visitors and the director of the department of public health and human services must be fully informed of the matter within 5 working days after the beginning of the involuntary administration. The director shall report to the governor on an annual basis.

(7) Satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to this chapter. However, if the court relies solely upon the criterion provided in 53-21-126(1)(d), the court may require commitment only to a community facility or program or an appropriate course of treatment as provided in subsection (3)(b), and may not require commitment at the state hospital ~~or the Montana mental health nursing care center.~~

(8) In ordering commitment pursuant to this section, the court shall make the following findings of fact:

- (a) a detailed statement of the facts upon which the court found the respondent to be suffering from a mental disorder and requiring commitment;
- (b) the alternatives for treatment that were considered;
- (c) the alternatives available for treatment of the respondent;
- (d) the reason that any treatment alternatives were determined to be unsuitable for the respondent;
- (e) the name of the facility, program, or individual to be responsible for the management and supervision of the respondent's treatment;
- (f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was chosen from among other alternatives;

(g) if the order commits the respondent to the Montana mental health nursing care center, a finding that the respondent meets the admission criteria of the center and that the superintendent of the center has issued a written authorization specifying a date and time for admission; and

~~(g)~~(h) if the order includes involuntary medication, the reason involuntary medication was chosen from among other alternatives.""

**Insert: "Section 2.** Section 53-21-128, MCA, is amended to read:

**"53-21-128. Petition for extension of commitment period.** (1) (a) Not less than 2 calendar weeks prior to the end of the 3-month period of commitment to the state hospital or the Montana mental health nursing care center or the period of commitment to a community facility or program or a course of treatment provided for in 53-21-127, the professional person in charge of the patient at the place of commitment may petition the district court in the county where the patient is committed for extension of the commitment period unless otherwise ordered by the original committing court. The petition must be accompanied by a written report and evaluation of the patient's mental and physical condition. The report must describe any tests and evaluation devices that have been employed in evaluating the patient, the course of treatment that was undertaken for the patient, and the future course of treatment anticipated by the professional person.

(b) Upon the filing of the petition, the court shall give written notice of the filing of the petition to the patient, the patient's next of kin, if reasonably available, the friend of respondent appointed by the court, and the patient's counsel. If any person notified requests a hearing prior to the termination of the previous commitment authority, the court shall immediately set a time and place for a hearing on a date not more than 10 days from the receipt of the request and notify the same people, including the professional person in charge of the patient. If a hearing is not requested, the court shall enter an order of commitment for a period not to exceed 6 months.

(c) Procedure on the petition for extension when a hearing has been requested must be the same in all respects as the procedure on the petition for the original 3-month commitment except the patient is not entitled to trial by jury. The hearing must be held in the district court having jurisdiction over the facility in which the patient is detained unless otherwise ordered by the court. Court costs and witness fees, if any, must be paid by the county that paid the same costs in the initial commitment proceedings.

(d) If upon the hearing the court finds the patient not to be suffering from a mental disorder and requiring commitment within the meaning of this part, the patient must be discharged and the petition dismissed. If the court finds that the patient continues to suffer from a mental disorder and to require commitment, the court shall order commitment as set forth in 53-21-127(3). However, an order may not affect the patient's custody for more than 6 months. In its order, the court shall describe what alternatives for treatment of the patient are available, what alternatives were investigated, and why the investigated alternatives were not found suitable. The court may not order continuation of an alternative that does not include a comprehensive, individualized plan of treatment for the patient. A court order for the continuation of an alternative must include a specific finding that a comprehensive, individualized plan of treatment exists.

(2) Prior to the end of the period of commitment to a community facility or program or course of treatment, a respondent may request that the treating provider petition the district court for an extension of the commitment order. The petition must be accompanied by a written report and evaluation of the respondent's mental and physical condition, an updated treatment plan, and a written statement by the respondent that an extension is desired. The extension procedure must follow the procedure required in subsections (1)(b) through (1)(d).

(3) Further extensions under subsection (1) or (2) may be obtained under the same procedure described in subsection (1). However, the patient's custody may not be affected for more than 1 year without a renewal of the commitment under the procedures set forth in subsection (1), including a statement of the findings required by subsection (1).""

HOUSE JOURNAL  
THIRTIETH LEGISLATIVE DAY - FEBRUARY 11, 2003

**Insert: "Section 2.** Section 69-4-603, MCA, is amended to read:

**"69-4-603. Procedure to accomplish move -- payment of cost.** (1) In order to accomplish moving a house, building, derrick, or other structure through an area in which utility wires, cables, or poles or ~~wires~~ impede the movement, ~~it is the duty of~~ the person, firm, or corporation who owns or controls the poles or wires, cables, or poles and who has received the notice required by 69-4-602 ~~to shall~~ furnish competent workers to raise or cut the wires or cables or move the poles as necessary to facilitate moving the house, building, derrick, or other structure.

(2) ~~The necessary and reasonable expense of raising or cutting the wires or of moving the poles for utilities subject to the jurisdiction of the public service commission must be fixed and determined by the public service commission on the average cost per line or pole for time and materials expended. These costs and expenses must be reviewed biennially. Except as provided in subsections (4) and (5), the necessary and reasonable expense of raising or cutting the wires or of moving the poles must be shared equally by the person, firm, or corporation owning the structure and the person, firm, or corporation owning or operating the wires, cables, or poles required to be moved.~~

~~(3) The rates and charges of rural cooperative electric utilities, rural cooperative telephone utilities, and other persons who occupy and use utility or cooperative poles may not exceed the charges established by the public service commission for utilities subject to its jurisdiction. The charges assessed by utilities, other than utilities subject to the jurisdiction of the public service commission, must be apportioned as provided in subsection (2).~~

~~(4)(2) (a) Except as provided in subsection (4)(b) (2)(b), to facilitate the movement of a house, building, derrick, or other structure, the necessary and reasonable actual costs of raising or cutting wires or cables or moving poles to facilitate the movement of a house, building, derrick, or other structure, determined in accordance with the schedule filed under 69-4-602, must be paid by the owner of:~~

~~(i) a prefabricated structure that is intended to be moved from the place of fabrication; or~~

~~(ii) the sixth and each subsequent structure that exceeds 25 feet in height while being moved and that is to be moved from a single site. When structures are moved in a group or in a continuous caravan formation and when only a single line cut or movement is necessary, the move must count as only a single-structure move for purposes of this subsection (4)(a)(ii). For the purposes of this subsection (4)(a)(ii), a single site includes but is not limited to a development complex, housing complex, military base, or institutional complex. The whole of an incorporated municipality is not a single site as the term is used in this subsection mover.~~

~~(b) The necessary and reasonable actual costs of raising or cutting wires or cables or moving poles to facilitate the movement of a structure, determined in accordance with the schedule filed under 69-4-602, must be shared equally by the mover and the owner of the wires, cables, or poles if the structure is:~~

~~(i) owned by a person for occupancy or use by that person must be shared equally as provided in subsection (2);~~

~~(ii) when loaded, a height of less than 23 feet; and~~

~~(iii) not moved from the place of fabrication, a storage facility, or a dealer's lot.~~

~~(5) (a) A person, firm, or corporation who owns or moves a house, building, derrick, or other structure may not raise, cut, or in any way interfere with any poles or wires~~

~~(3) A mover may not raise, cut, or in any way interfere with wires, cables, or poles unless the person, firm, or corporation who owns or controls the poles or wires, cables, or poles refuses, after having been notified as required by 69-4-602, to raise or cut the wires or cables or move the poles.~~

~~(b) When the person who owns or controls the poles or wires refuses to raise or cut the wires or move the poles, the person, firm, or corporation who owns or moves the house, building, derrick, or other structure shall ensure that only competent and experienced workers raise or cut the wires or move the poles.~~

~~(c) The following procedure must be followed:~~

~~(i) The necessary and reasonable expense incurred by the owner or mover of the house, building, derrick, or other structure as a result of raising or cutting the wires or moving the poles must be paid by the owners of the poles or wires handled.~~

~~(ii) The work of raising or cutting the wires or moving the poles must be done in a careful manner.~~

~~(iii) The poles and wires must be promptly replaced and any damage to the poles or wires must be promptly repaired.~~

This limitation does not apply to claims for compensation paid to third parties for bodily injury or property damage. The running of the 5-year limitation period is suspended by an appeal of the board's denial of eligibility for reimbursement. If a written request for hearing is filed under 75-11-309, the suspension of the 5-year limitation period is effective from the date of the board's initial eligibility denial to the date on which the initial eligibility denial is overturned or reversed by the board, a district court, or the state supreme court, whichever occurs latest. The board may grant reasonable extensions of this limitation period if it is shown that the need for the extension is not due to the negligence of the owner or operator or agent of the owner or operator"

Good afternoon. I am happy to be here today.

I want to thank President Keenan, Speaker Mood, Senator Tester and Representative Wanzenried for the opportunity to deliver the State of Education address that brings us together to focus on the future of Montana's children.

In addition, I'd like to recognize Governor Martz, and my other colleagues and friends in the Executive and Judicial branches of Montana Government. And welcome to Allison Morrison, who has joined her father, our State Auditor.

Special thank you to my husband Bill for being here – my Valentine for 32 years.

I begin my address today with sincere words of thanks for the thousands of dedicated teachers, administrators, staff and trustees. You work tirelessly helping students learn and prepare for successful lives. Every day, your investment of time and love makes a difference in the lives of Montana's treasure — our children. Would all educators, staff or trustees in the audience, both in the gallery and on the floor, please stand? Let's give them a hand.

One of those educators is Jay Erdie, Superintendent in Roundup who has been an educator for almost 40 years. I am pleased to announce that Jay will be bringing his experience and expertise to Helena as my new Deputy Superintendent. Jay, my sincere thanks.

Today I greet students, educators and friends of education watching this address live. From Westby to Bonner and everywhere in between, OPT's video streaming technology makes this broadcast possible with the simple use of a

personal computer.

Today's historic moment with technology is one small example of many changes taking place all around us. A lot has happened since I spoke two years ago. On September 11, 2001, our lives changed forever. We have all taken time since then to re-evaluate our priorities, how precious our families are, and how precious our children are.

In a single moment, educators across the country were called upon to help find answers to their students' grief and fear. Montana's educators rose to the challenge with compassion and dignity. Students wrote letters and poems, raised funds, and organized blood drives.

Fortunately, incidences of violence in Montana are rare. But we are not immune from the safety concerns we, as a nation, face. We are prepared. Crisis response plans are in place to help in the event of a tragedy. Montana's educators' role in healing and keeping communities together in a time of crisis is indispensable. We can't thank them enough.

I know that it can sometimes be difficult to see children through the numbers, charts and graphs. That is why I have invited a special guest to join me today. Let me tell you a little bit about her. She is a fourth grader at Jefferson Elementary School here in Helena. She is studious, an adoring big sister, takes ballet lessons and sells me Girl Scout cookies. And like thousands of other students, she rides a bus to school.

When we have tea together, she keeps me in touch with what is going on in our schools, what we can do better and what we do very well. Today, she represents 150,000 Montana students in K-12. Please join me in welcoming my friend and neighbor, Ellie Tinsley to the Montana Legislature.

Ellie represents our Montana students who rank among the top in the nation. For two years in a row, Montana students scored well above national averages in all grades and subject areas. Montana students in 8th grade nationally rank #1 in science and #2 in math. However, I am concerned that our high test scores are leveling. While other states that have significantly invested in education are seeing gains in their student scores, our scores aren't improving.

I am incredibly proud of our students. And I'm proud of parents, educators, and communities that support them. To the many communities across Montana who consistently vote to increase tax burdens that maintain quality public schools -- you need to know that our schools are preparing students, like Ellie and Allison, for the future.

I genuinely believe that we all want the same thing for Montana's students. We want educated and caring children.

We want informed, responsible citizens. We want our students to achieve their dreams and lead productive lives. And perhaps most importantly, we want our kids to believe they can stay, live and work in Montana.

Our commitment to our kids -- and to providing resources to help them succeed -- is about to be truly tested. We face a very real budget crisis. As a former legislator, I understand the difficult decisions that lay ahead. I also know as the State Superintendent and as a long-time-teacher, decisions made this legislative session will greatly affect our children's future.

There are those who would question our investment in education. I know:

When we invest in education, pre-school through college ... we build a stronger Montana for our children to live, work and raise a family.

When we invest in our children's education ... we build Montana's economy.

HOUSE JOURNAL  
THIRTY-THIRD LEGISLATIVE DAY - FEBRUARY 14, 2003

When we Invest in public schools ... we create an incentive for businesses to locate in Montana.

We must invest in our school kids today.

School budgets are stretched to the breaking point. Montana's school enrollment is declining, because of a decline in birth rates. State support is then reduced due to our current funding formula. If a school loses as few as 8 kids, the school essentially has lost revenue equal to a teacher's salary. But what happens when the classroom teacher is still needed?

The reality is schools must make cuts to balance budgets. While the number of kids goes down, the school's operating budget does not drop in proportion. Many classroom costs, like utilities and building maintenance are fixed and ongoing.

Let me tell you what cuts to school budgets mean.

Classes will have more students, and our kids will get less personal attention in crucial early grades when kids are learning to read and write. At-risk kids will have fewer opportunities to keep them from dropping out of school.

Our young people will have limited vocational training to prepare them for the work force. Students will have more out-of-date textbooks and library books, and our kids will have fewer class offerings: from music to math.

Each school is finding its own solutions. I'm constantly amazed at the sheer will of educators, schools boards, and parents to find creative ways to make ends meet. We have a responsibility to our children that cannot be ignored.

As a whole, Montana educators are aging. Many retire; some move out of the state or leave the profession. In addition, Montana schools are not able to compete with the enticing salaries and employment benefits that other states offer our new teacher education graduates. We literally do not have enough new teachers staying in Montana to fill the job openings.

Without qualified teachers to replace them, the high quality education offered by our schools is in jeopardy. We need long-term solutions to our shortage of educators.

I am proud of the positive steps the Office of Public Instruction has taken:

Our website helps teachers find jobs and schools find teachers. More than 1100 job openings are currently posted on our Montana Jobs for Teachers site.

We are in the final stages of creating an on-line educator license renewal system to eliminate the paper-intensive process that exists today.

And a teacher internship program is in the works so that teachers can more easily master new subject areas.

I am committed to finding solutions to our school funding problems. Working together with the education community, as State Superintendent I proposed a school funding package last April. The package includes:

ANB averaging to help schools with a declining enrollment.

Student loan repayments, and increased retirement benefits for teachers who teach 30 or more years to help schools recruit and retain highly qualified teachers.

HOUSE JOURNAL  
THIRTY-THIRD LEGISLATIVE DAY - FEBRUARY 14, 2003

A per-educator entitlement to create a new way to fund schools without relying on student count.

Increase in the basic and per ANB entitlements, and

Increase in special education funding.

This package reflects the full range of challenges facing schools.

I understand school funding increases will not happen without an increase in state revenues. An average week-long tourist visit to Montana generates only \$34 in taxes. Our neighbors in Wyoming collect \$122, and Utah \$239 for the same seven-day period. I have advocated this session for tourists visiting Montana to pay their fair share for upkeep to our state through a car rental tax and an increase in the bed tax. To prevent the decline of our public school system, we must identify long-term revenues that invest in education.

I have the honor of being elected by the people of Montana to make sure our state is providing services their children and grandchildren need. I am responsible for ensuring teachers are qualified, schools are accountable, and funds are distributed to schools, on time, every time, and much much more. I take these responsibilities very seriously.

This past year I visited many Montana schools and communities traveling in a yellow school bus along with members of my staff. I wanted to know how we could better deliver services and resources to Montana schools. Yes, the bus seats are still hard. But the travel is safe and reliable in all weather. The Yellow School Bus Tour was an opportunity to hear firsthand the strengths and challenges facing our public schools.

Here is a snapshot of a small part of what we learned:

Schools are the heart and soul of Montana communities. They serve as the hub of activity for local sports, arts and community events.

Pride extends everywhere in our schools and communities. Classrooms are full of students deeply immersed in learning. Parents are ready to lend "helping hands" in the classroom.

Our educators are community leaders.

Retired senior citizens are actively volunteering their time and talents to make a difference in children's lives.

Kids in our small and medium size schools need and deserve the same opportunities as kids in larger cities.

School and business partnerships are strong. Businesses support school-to-work partnerships, loan their employees to volunteer in schools and frequently provide needed resources and support.

Montana's economy lays front and center in school concerns. Nearly one quarter of all children in our state are from families living below the poverty level.

Every school is unique. We were grateful for the opportunity to dine on buffalo stew, learn traditional Indian dancing and drumming and hand games.

The very best way to learn the strengths and challenges of K-12 education is to spend time in your local school. They will be honored to have you visit.

HOUSE JOURNAL  
THIRTY-THIRD LEGISLATIVE DAY - FEBRUARY 14, 2003

Today is "I love to read" day in Montana. There is no issue closer to my heart than reading and literacy. We know that if a child is not reading at grade level by the end of third grade, it is very difficult for them to catch up. I'm proud that Montana children rank high in the nation for reading, but too many children are still left behind.

In response, I launched a Montana Literacy Initiative. This summer will be our third Literacy Summit to bring together parents, educators, community and business leaders, and higher education to focus on the importance of literacy.

Montana responded to these summits with renewed energy and commitment to improve reading instruction for all our students. I pledge to continue these efforts!

We must address the challenges facing American Indian students in Montana. Thanks to Representative Juneau's leadership in research, we can no longer ignore the facts -- Montana's American Indian students drop out of school at a rate more than 3 times that of non-Indian students.

A generation of young men and women are left with little prospect for a future that an education can provide. It is expensive for Montana to support school dropouts. It is more expensive for our state to lose the potential of our youth.

I am committed to finding solutions. The Office of Public Instruction competed for and received three federal grants to invest in American Indian students.

Through a Reading Excellence Act grant, we now fund 30 schools to help them implement successful reading strategies for their students, of which nearly half are American Indian.

A federal school drop-out grant is funding six school districts in Box Elder, Browning, Heart Butte, Lame Deer, Poplar and Rocky Boy to identify community strategies that will help their youth stay in school. We are also developing a statewide drop-out plan.

We know that students drop out of school for many reasons. A character education grant helps schools create a positive, respectful school setting that promotes kids staying in school.

All Montana students deserve the opportunity to understand the rich American Indian culture and history in Montana. I commend Representative Norma Bixby for her dedication to obtain funds so all Montana students and schools can understand the culture and heritage of Montana's Indian people. Without financial support, our Constitutional promise of "Indian Education for All" will remain only a paper promise.

One year ago, President Bush signed into law his No Child Left Behind Act. This federal law places a high priority on education and a commitment to educate all children. But it comes with extensive and expensive accountability and state and local responsibilities. These have created new challenges, especially to rural states. The good news is this new federal law brings resources for Montana's K-12 public education system. BUT these resources come with many requirements. For example, this federal law requires much more testing of our students than is currently required by our Montana Board of Public Education. Student assessment decisions should be left to individual states.

When student test scores do not improve enough, President Bush's No Child Left Behind law requires the state to take actions regarding a school's curriculum and staffing. This greatly concerns me, as it does local school trustees. While being accountable is a good thing, we have always believed that decisions should be made at the local level. Those beliefs have served us well.

HOUSE JOURNAL  
THIRTY-THIRD LEGISLATIVE DAY - FEBRUARY 14, 2003

These are just a couple of my concerns. We will need to work together throughout the coming years to make this new federal law beneficial to all of Montana's students.

In the past 50 years science and technology has radically changed our lifestyle and economy. It used to be simple to look under the hood of your car to figure out what was wrong. Not any more. Today's specialized diagnostic equipment is essential to root out computer-based engine solutions. Gone is the day that all you needed was a toolbox with a couple of wrenches.

Since 1950, the demand for skilled labor has more than tripled. Businesses now expect a workforce to have a set of skills that were unimaginable even 30 years ago. Think about it: Teachers prepare students for career options that do not even exist today.

Education will prepare our children and grandchildren for this new century.

Education allows them to compete in a world where all sectors of the economy – from microchips to mining – depend on high tech skills and training.

Education is the engine that drives economic development. Businesses will absolutely not locate in Montana if we do not provide a well-educated workforce and a place where they will want their own children to go to school. Education is the key to moving Montana's economy forward.

I have great faith in the collective commitment of Montana's parents, educators, school staff, school boards, senior citizens, business partners and community members. Together we will invest in building a bright future for our children.

We Montanans can do whatever we put our minds to. Let me tell you about a very special senior citizen who didn't let anything stop him from making his dreams a reality.

This gentleman, a retired Bonner millworker, began volunteering many years ago at the local elementary school. The students already knew him as his barbecue grill fed many hamburgers for years to the neighborhood kids. He helped students, kindergarten through 8<sup>th</sup> grade, with their reading skills and learning to use the computer. After a number of years, the 8<sup>th</sup> grade class asked him to be their graduation speaker. He said he couldn't possibly speak in front of all those people. Yet, it nagged at him -- he had encouraged the kids to reach for high goals. To be a better role model, eventually he agreed to be the speaker. It was the best graduation speech I've ever heard.

Later we learned that he had dropped out of college in 1948, during a required speech class. And he often thought about not finishing his education. So, 50 years after dropping out of college, he enrolled in a speech class and returned to the University of Montana. He passed, took more classes, and then he enrolled in the teacher education program.

Today, at 75 years young, he is finishing up his last classes and will do his student teaching next school year. Help me welcome an inspiration to education, my friend Mr. Arnold "ODE" Odegard. Please stand up and be recognized, Ode.

Ode is an example of an amazing talent pool Montana has in its school volunteers, our educators and our emerging new teachers. Without a doubt, "Ode" deserves our deep appreciation for his investment in Montana's children. Just seeing both Ellie and Ode side by side reminds me what Montana is really all about: Generations working together for a better future for our children.

I'd like to thank the kids watching this on the Internet. Knowing you are out there helped me focus my thoughts

HOUSE JOURNAL

and keep my priorities straight. Perhaps that is what Montanans can ask of all of us over the remainder of this session. To remember our children are listening to the priorities we set. The decisions we make will shape their lives.

Today's students will become tomorrow's business, spiritual, community and school leaders. They will also become Montana's legislators, governors, judges and state superintendents. Montana students are our greatest treasure; when we invest in them, there is no telling where they can take this state.

On behalf of Montana's 150,000 school children and all who work on behalf of public education in our state, I thank you for your time today and your interest in Montana's public schools. My door is always open and I look forward to your visit.

President Keenan thanked Superintendent McCulloch for her address, and requested the escort committee to escort Superintendent McCulloch from the House chamber.

House Majority Leader R. Brown moved the joint session be adjourned. Motion carried.

Joint session adjourned at 1:42 p.m.

(1) (a) Subject to subsection (1)(b), whenever a tract of record that is 3 acres or smaller in size is located within an irrigation district, is not served and has not been served for the previous 5 years by any district system, facility, or other undertaking, and cannot be served without an unreasonable burden being placed on the owner of the tract or the district, the owner of the tract may:

(i) petition for the purpose of excluding the tract from future services, assessments, and liability of the district as provided in subsection (2); or

(ii) file a request with the irrigation district for the purpose of excluding the tract from future services, assessments, and liability of the district as provided in subsection (1)(c).

(b) If the exclusion of the tract from future services, assessments, and liability of the district threatens provisions of a United States bureau of reclamation contract, the owner of the tract may not petition for the exclusion of the tract from future services, assessments, and liability unless the owner cooperates with the district in order to comply with federal laws and requirements.

(c) A tract owner may file a request with the district to exclude a tract from future services, assessments, and liability of the district. The district may agree with the tract owner on any amount determined appropriate for that exclusion.

(2) When a tract of land in an irrigation district meets the requirements of subsection (1), the owner may petition the district court for an exclusion of the tract from future services, assessments, and liability of the district, subdistrict, or combination of a district and subdistrict. The petition must be signed by all persons who hold title to the tract and must include:

(a) the name of the irrigation district;

(b) the name and address of the persons holding title to the tract;

(c) evidence of the title to the tract as provided in 85-7-101 and 85-7-102;

(d) a copy of a map or plat of the irrigation district showing the location of the tract to be excluded from future services, assessments, and liability of the district and the relation of that land to the irrigation works of the district;

(e) a statement, corroborated by adequate documentation, that the users of the tract do not and cannot feasibly obtain water from the irrigation district through existing irrigation works and no longer want the tract to be included in the irrigation district's assessment rolls;

(f) a copy of a recent tax statement documenting assessment of the tract by the irrigation district;

(g) a request that the tract be excluded from future services, assessments, and liability of the irrigation district;

and

(h) payment to the irrigation district representing a severance fee as provided in subsection (3).

(3) (a) Subject to subsection (3)(b), the severance fee that must be paid by an owner of a tract petitioning the district court to exclude a tract from future services, assessments, and liability of the irrigation district must be determined by adding the following:

(i) the present value of existing irrigation district debt apportioned to the petitioned tract; and

(ii) one-half of the present value of future irrigation district operation and maintenance costs apportioned to the

HOUSE JOURNAL  
THIRTY-SIXTH LEGISLATIVE DAY - FEBRUARY 18, 2003

petitioned tract for 40 years.

(b) The minimum severance fee is \$100.

(c) The department of natural resources and conservation shall adopt by rule the present value formula to be used in determining the severance fee. The rules must include:

(i) direction on whether current or average assessment rates must be used; and

(ii) the treasury rate or interest rate to be used in the calculation.

(d) The severance fee must be determined using the values applicable on the date of filing.

(4) Upon filing the petition with the court, the petitioner shall mail a copy of the completed petition by certified mail to the irrigation district that is subject to the petition.

(5) The petitioner shall file the petition, proof of mailing pursuant to subsection (4), and a \$20 fee with the clerk of the district court for the county in which the irrigation district was created.

(6) Within 45 days of the date of the filing of the petition, the irrigation district may file an objection to the petition. To be valid, the objection must provide sufficient evidence that the provisions of subsection (1) do not apply.

(7) If a valid objection is filed, the district court may hold a hearing if necessary to resolve the facts stated in the petition.

(8) The court shall grant the petition to exclude the tract from future services, assessments, and liability:

(a) if no objections are filed within 45 days of filing the petition; or

(b) upon determination of the district court that the petition is sufficient.

(9) The district court shall forward to the irrigation district:

(a) a copy of the order granting the exclusion; and

(b) the severance fee.

(10) A petition granted pursuant to this section excludes the owner of the petitioned tract from:

(a) irrigation district services, assessments, and liability;

(b) holding an office on the district board;

(c) participating in future district administrative matters; and

(d) objecting to a petition by the district to remove the acreage from the district boundaries as provided in 85-7-1802.

(11) Once a petition is granted, services, assessments, administrative fees, miscellaneous fees, and charges may not be collected from the owner of the petitioned tract and the owner is exempt from future liability of the district."

**SPECIAL ORDERS OF THE DAY**

Mr. Speaker introduced Monte the Grizzly from the University of Montana, the 2002-2003 National Mascot of the Year. Monte entertained the House with the same daredevil antics that earned him this national award. The man behind the fur grew up on a ranch outside of Terry, Montana, before moving to Miles City where he graduated from high school in 1997. The mystery man then accepted an acting scholarship to the University of Montana and received his degree in 2001.

**SECOND READING OF BILLS  
(COMMITTEE OF THE WHOLE)**

Information about controlling mold growth may be available from your county extension agent or health department. Certain strains of mold may cause damage to property and may adversely affect the health of susceptible persons, including allergic reactions that may include skin, eye, nose, and throat irritation. Certain strains of mold may cause infections, particularly in individuals with suppressed immune systems. Some experts contend that certain strains of mold may cause serious and even life-threatening diseases. However, experts do not agree about the nature and extent of the health problems caused by mold or about the level of mold exposure that may cause health problems. The Centers for Disease Control and Prevention is studying the link between mold and serious health conditions. The seller, landlord, seller's agent, buyer's agent, or property manager cannot and does not represent or warrant the absence of mold. It is the buyer's or tenant's obligation to determine whether a mold problem is present. To do so, the buyer or tenant should hire a qualified inspector and make

Mr. Speaker, Mr. President, Governor Martz, distinguished members of the House and Senate, special guests:

Allow me to open with a heart-felt appreciation for your service to our state of Montana. The work you do for our state is noble and exemplifies the self-sacrifice for the betterment of all Montanans.

Now that being said, the statement will not exempt you from your critics.

Thank you, and good afternoon. I know you all have a lot of work left to do, so I will keep this brief, and to the point.

Montana is currently confronted by challenges that threaten the future of our state. We suffer from a relentless drought, unemployment, a mounting deficit, a health care crisis, a sense of economic uncertainty.

Today, the engine of our economy is slow, but the problems we face are not just 'Montana' problems. States around

HOUSE JOURNAL  
THIRTY-EIGHTH LEGISLATIVE DAY - FEBRUARY 20, 2003

the country face budget deficits and rising unemployment. New York, California, Florida, nearly every state in the union is struggling with its own problems.

Too often we focus on the bad, and ignore the good. I think that is a mistake. We need to look at our positives, and use them to correct our negatives. For example, last year, average unemployment in this nation was 6%.

Montana is beating the national average, with an unemployment rate of 4.2%. This number decreased from 2001 when unemployment sat at 4.6%. This does not tell a story of a state in shambles. It tells a story of a state that's eager to work and to produce for America, but that should come as no surprise to Montanans.

Montana is different from much of America. Individuals - not corporations - constitute the backbone of our economy. The family-operated business, farm or ranch; the small business owner. These are the businesses that allow our state economy to function. They typically employ less than 10 people, but they make up 72% of our state's businesses.

Most of our businesses focus on the basics, while keeping that vision of growth and expansion. They think about putting food on the table for their family, and those of their employees. They want to provide health care benefits, and they don't want to lay off workers, for their employees are more than a number; they are like extended family. These basics are more important than corporate jets, big CEO bonus packages, golden parachutes and vacation homes in the Bahamas.

In Montana, we are workhorses - not show horses.

Look at our agricultural community. We face water levels so low, you can walk across the Yellowstone at Livingston and not get your knees wet. New global markets and expanding international competition have depressed commodity prices. Yet we still produce some of the finest products available in the world today. There are those that express grave concern over free trade, and its erosion of our competitiveness and our jobs. I share those concerns. I also understand that free trade is a reality we must live with, so rather than fight it, we must leverage it.

In Washington, I am working to ensure that free trade does not bypass Montana. I have founded the U.S. - Asia Network, an organization that aims to promote economic freedom and security between our two regions. I have also recently been named co-chair of the U.S. - Taiwan business council.

Asia is already a major export market for the United States, and I feel it provides the greatest potential for opportunity here in Montana. Today, five of the top ten U.S. export markets for agricultural products are in Asia. After Canada and Mexico, Taiwan and Japan are Montana's two largest trade partners. Montana is also a well-known commodity in Asia, thanks to the legacy of one of our state's great leaders, Senator Mike Mansfield.

If Montana is 'Open for Business', let's look at what we're selling. I see our producers and small businesses using this Asian market opportunity to move their 'Made in Montana' products to the global stage in even greater numbers. Remember this. People, not governments, will promote and preserve our prosperity.

We need to look at what we have on our shelves. We have bountiful natural resources such as coal, timber, coal bed methane, and petroleum reserves. These resources, used domestically or exported abroad, would provide an economic boost for our state while reducing our dependence on terrorist-sponsored energy in the Middle East. These are possible solutions.

President Bush addressed the new frontier of energy in his State of the Union address when he talked of fuel cell

HOUSE JOURNAL  
THIRTY-EIGHTH LEGISLATIVE DAY - FEBRUARY 20, 2003

research. I can't agree more. Montana holds great promise in clean, alternative energy production. We have a lot of sunshine, and from that we can harvest solar energy. We have an abundance of wind, (even when I'm not talking) and from that we can harvest energy. Most promising is hydrogen fuel cell energy, which I identified several years back as a great opportunity for Montana. Over the past several years, I have gotten funding for extensive research conducted in both Bozeman and Billings on this very technology, and Montana is a leader in our nation on this very important research.

We can't forget the need to provide better access to health care for Montanans. Insurance costs are skyrocketing, business are forced to pass those costs on to employees, and increasing numbers of people skip preventative care because of the impact on their pocketbook and a lack of adequate coverage. We need medical liability reform, as the costs of litigation on our medical professionals is driving health care cost increases on to everyone, and forcing dedicated, caring professionals out of practice. We need responsible prescription drug coverage, period. We need to expand medical savings accounts and provide tax incentives for health insurance coverage. We must continue our expansion of telemedicine to provide greater access and care for those in rural areas of our state. I am committed to doing what is right for Montanans, and will support common-sense changes to our health care benefits at the federal level.

It is easy to get bogged down in the negative as you continue your work here in the legislature. I think you need to see what is good and positive here in our state. Those assembled here are regular Montanans who try to do what is best for their family and their community. Your underlying goal is to make our state a better place. I have some regular Montanans who are doing extraordinary things in our state, and I want to introduce them to you:

The first person I would like to recognize is Dr. Joe McDonald, President of Salish Kootenai College in Pablo. Dr. McDonald founded Salish Kootenai College 27 years ago, with a group of 30 students and classrooms in an old condemned school building.

He has seen the college grow to serve 1500 students who attend classes in new buildings that were constructed from Montana timber by SKC carpentry students. He has fostered a strong faculty, an outstanding library, and a tribal business development and information center that supports economic development on the Flathead Reservation.

Dr. McDonald has been a role model and leader in the national tribal college movement; a movement that includes seven fully accredited colleges in Montana and 27 similar colleges in eleven other states. It is a movement that has offered thousands of Native Americans and non-Indians living on or near reservations the opportunity for an education and the promise of a good job.

Also here today is Mike McCue, Chairman and CEO of LigoCyte Pharmaceuticals. We are all aware of the threat of bio-terrorism, both here and abroad. LigoCyte is leading the nation in developing protection from those threats. This company has expanded its infectious disease program to help treat and prevent numerous infectious diseases. With assistance from federal research grants, they are helping to protect the lives of our military personnel as they continue working on a new anthrax vaccine, one that is progressing very well and has received attention from the Department of Defense.

Through the work of Mike and his company, many new employment opportunities have become available for students educated at Montana universities, something crucial to attracting and keeping our educated youngsters in Montana, and allowing our state to flourish.

I would also like to bring attention to Brian Wolf and Jenny Hansen, two very influential people in the growing world of technology in Montana.

HOUSE JOURNAL  
THIRTY-EIGHTH LEGISLATIVE DAY - FEBRUARY 20, 2003

Brian is the Chief Information Officer for the State of Montana, working to guide the implementation of information technology in the Montana State Government. He is also the Co-Chair of the Governor's Homeland Security Task Force. Jenny oversees 911 on the state level. I have worked closely with Jenny in my efforts to get 'e-911' up and running and at an acceptable level, the goal of which is to improve public safety by offering technology to emergency responders and allowing them to pinpoint the locations of a wireless user when calling 911. Jenny has also worked with the Governor's office to re-institute the Public Safety Services Office, and sits on numerous national councils, all associated with public safety.

Both Brian and Jenny have worked tirelessly to coordinate public safety in our state, promote new technology and growth, and forge new levels of agency cooperation, rapid response, and technological opportunity in Montana. Their efforts have made our communities safer, and our law enforcement and safety professionals more effective. This is a benefit to us all.

Ladies and gentlemen, let's give a round of applause to these dedicated Montanans.

As you finish this legislative session, give yourself the reminder that I do every single day. "Do No Harm." Your efforts, and those of countless other Montanans will plot our state a course for prosperity. We have the resources, we have the talent, we have the dedication. We will overcome these obstacles and continue our goal of making Montana a better place for our children, and our grandchildren.

Thank you for the work you do for our state. Thank you for your sacrifices. Thank you for taking the time from your busy schedule to listen to me. Now, get back to work!

President Keenan thanked U. S. Senator Conrad Burns for his address to the joint session. Speaker Mood requested the committee to escort Senator Burns and dignitaries from the House chambers.

Senate Majority Leader Thomas moved the joint session of the 58th Legislature, convened to receive the address from U. S. Senator Conrad Burns, be adjourned. Motion carried.

House reconvened at 1:35 p.m.

WHEREAS, the Legislature desires to alleviate the cost-shifting from Medicaid to other patients, while bearing in mind the financial circumstances facing the state; and

WHEREAS, it is the intent of the Legislature to find creative financing solutions and to maximize federal participation in the cost of programs whenever possible; and

WHEREAS, it is the intent of the Legislature to use the utilization fee established in this act as a means of providing additional Medicaid reimbursements to hospitals; and

WHEREAS, it is the intent of the Legislature that additional Medicaid reimbursements to hospitals exceed the cost of the assessment and that the utilization fee not be placed on patients' bills; and

**"2-4-702. Initiating judicial review of contested cases.** (1) (a) A person who has exhausted all administrative remedies available within the agency and who is aggrieved by a final decision in a contested case is entitled to judicial review under this chapter. This section does not limit utilization of or the scope of judicial review available under other means of review, redress, relief, or trial de novo provided by statute.

(b) A party who proceeds before an agency under the terms of a particular statute may not be precluded from questioning the validity of that statute on judicial review, but the party may not raise any other question not raised before the agency unless it is shown to the satisfaction of the court that there was good cause for failure to raise the question before the agency.

(2) (a) Except as provided in subsection (2)(c), proceedings for review must be instituted by filing a petition in district court within 30 days after service of the final decision of the agency or, if a rehearing is requested, within 30 days after the decision is rendered. Except as otherwise provided by statute or subsection (2)(d), the petition must be filed in the district court for the county where the petitioner resides or has the petitioner's principal place of business or where the agency maintains its principal office. Copies of the petition must be promptly served upon the agency and all parties of record.

(b) The petition must include a concise statement of the facts upon which jurisdiction and venue are based, a statement of the manner in which the petitioner is aggrieved, and the ground or grounds specified in 2-4-704(2) upon which the petitioner contends ~~he is to be~~ entitled to relief. The petition must demand the relief to which the petitioner believes the petitioner is entitled, and the demand for relief may be in the alternative.

(c) If a petition for review is filed pursuant to 33-16-1012(2)(c), the workers' compensation court, rather than the district court, has jurisdiction and the provisions of this part apply to the workers' compensation court in the same manner as the provisions of this part apply to the district court.

(d) If a petition for review is filed challenging a licensing or permitting decision made pursuant to Title 75 or Title 82, the petition for review must be filed in the county where the facility is located or proposed to be located or where the action is proposed to occur.

(3) Unless otherwise provided by statute, the filing of the petition may not stay enforcement of the agency's decision. The agency may grant or the reviewing court may order a stay upon terms that it considers proper, following notice to the affected parties and an opportunity for hearing. A stay may be issued without notice only if the provisions of 27-19-315, 27-19-316, and 27-19-317 are met.

HOUSE JOURNAL  
FORTIETH LEGISLATIVE DAY - FEBRUARY 22, 2003

(4) Within 30 days after the service of the petition or within further time allowed by the court, the agency shall transmit to the reviewing court the original or a certified copy of the entire record of the proceeding under review. By stipulation of all parties to the review proceedings, the record may be shortened. A party unreasonably refusing to stipulate to limit the record may be ~~taxed~~ required by the court ~~for~~ to pay the additional costs. The court may require or permit subsequent corrections or additions to the record.""

**"82-4-239. Reclamation.**(1) The department may have reclamation work done by its employees, by employees of other governmental agencies, by soil conservation districts, or through contracts with qualified persons. The board may construct, operate, and maintain plants for the control and treatment of water pollution resulting from mine drainage.

(2) Any funds or any public works programs available to the department must be used and expended to reclaim and rehabilitate lands that have been subjected to strip mining or underground mining and that have not been reclaimed and rehabilitated in accordance with the standards of this part. The department shall cooperate with federal, state, and private agencies to engage in cooperative projects under this section.

(3) Agents, employees, or contractors of the department may enter upon any land for the purpose of conducting studies or exploratory work to determine whether the land has been strip- or underground-mined and not reclaimed and rehabilitated in accordance with the requirements of this part and to determine the feasibility of restoration, reclamation, abatement, control, or prevention of any adverse effects of past coal-mining practices. Upon request of the director of the department, the attorney general shall bring an injunctive action to restrain any interference with the exercise of the right to enter and inspect granted in this subsection. The action must be brought in the county in which the mine is located.

(4) (a) The department shall take the actions described in subsection (4)(b) when it makes a finding of fact that:

- (i) land or water resources have been adversely affected by past coal-mining practices;
- (ii) the adverse effects are at a stage at which, in the public interest, action to restore, reclaim, abate, control, or prevent should be taken; and
- (iii) the owners of the land or water resources where entry must be made to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices are not known or readily available or the owners will not give permission for the department or its agents, employees, or contractors to enter upon the property to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices.

(b) After giving notice by mail to the owner, if known, and any purchaser under contract for deed, if known, or, if neither is known, by posting notice on the premises and advertising in a newspaper of general circulation in the county in which the land lies, the agents, employees, or contractors of the department may enter on the property

adversely affected by past coal-mining practices and on any other property necessary for access to the mineral property to do all things necessary or expedient to restore, reclaim, abate, control, or prevent the adverse effects of past coal-mining practices.

(c) Action taken under subsection (4)(b) is not an act of condemnation of property or of trespass, but rather is an exercise of the power granted by ~~sections 1 and 2~~, Article IX, sections 1 and 2, of the Montana constitution.

(5) (a) Within 6 months after the completion of projects to restore, reclaim, abate, control, or prevent adverse effects of past coal-mining practices on privately owned land, the department shall itemize the money expended and may file a statement of those expenses in the office of the clerk and recorder of the county in which the land lies, together with a notarized appraisal by an independent appraiser of the value of the land before the restoration, reclamation, abatement, control, or prevention of adverse effects of past coal-mining practices if the money expended resulted in a significant increase in property value. The statement constitutes a lien upon the land. The lien may not exceed the amount determined by the appraisal to be the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal-mining practices. A lien under this subsection (5)(a) may not be filed against the property of a person who owned the surface prior to May 2, 1977, and who did not consent to, participate in, or exercise control over the mining operation that necessitated the reclamation performed under this part.

(b) The landowner may petition within 60 days of the filing of the lien to determine the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal-mining practices. The amount reported to be the increase in value of the premises constitutes the amount of the lien and must be recorded with the statement provided for in this section. Any party aggrieved by the decision may appeal as provided by law.

(c) The lien provided in this section must be recorded at the office of the county clerk and recorder. The statement constitutes a lien upon the land as of the date of the expenditure of the money and has priority as a lien second only to the lien of real estate taxes imposed upon the land.

(6) The department may acquire the necessary property by gift or purchase. If the property cannot be acquired by gift or purchase at a reasonable cost, proceedings may be instituted in the manner provided in Title 70, chapter 30, against all nonaccepting landholders if:

(a) the property is necessary for successful reclamation;

(b) the acquired land after restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal-mining practices will serve recreation and historic purposes or conservation and reclamation purposes or provide open space benefits; and

(c) (i) permanent facilities, such as treatment plants or relocated stream channels, will be constructed on the land for the restoration, reclamation, abatement, control, or prevention of the adverse effects of past strip- or underground-coal-mining practices; or

(ii) acquisition of coal refuse disposal sites and all coal refuse on the land will serve the purposes of this part because public ownership is desirable to meet emergency situations and prevent recurrences of the adverse effects of past coal-mining practices.""

**COMMUNICATIONS AND PETITIONS**

Petition to the Montana House of Representatives

I hereby petition the Montana House of Representatives to Divide the Question regarding House Bill 74, pursuant to House Rule 50-130.

There are two or more propositions so distinct that they can be separated; to wit;

- (1) The transfer \$93 million from the Coal Severance Tax Trust, and;
- (2) The funding of particular programs.

In dividing the question on House Bill 74 I further petition the Montana House of Representatives to first consider the transfer \$93 million from the Coal Severance Tax Trust and second to consider the program funding. The question of program funding is a substantive question that remains after a determination of a transfer \$93 million from the Coal Severance Tax Trust.

3. Page 1, line 19 through page 8, line 19.

**Strike:** everything after the enacting clause

**Insert:** "**Section 1.** Section 61-8-404, MCA, is amended to read:

**"61-8-404. Evidence admissible -- conditions of admissibility.** (1) Upon the trial of a criminal action or other proceeding arising out of acts alleged to have been committed by a person in violation of 61-8-401, 61-8-406, 61-8-410, or 61-8-805:

(a) evidence of any measured amount or detected presence of alcohol, drugs, or a combination of alcohol and drugs in the person at the time of a test, as shown by an analysis of the person's blood or breath, is admissible. A positive test result does not, in itself, prove that the person was under the influence of a drug or drugs at the time the person was in control of a motor vehicle. A person may not be convicted of a violation of 61-8-401 based upon the presence of a drug or drugs in the person unless some other competent evidence exists that tends to establish that the person was under the influence of a drug or drugs while driving or in actual physical control of a motor vehicle within this state.

(b) a report of the facts and results of one or more tests of a person's blood or breath is admissible in evidence if:

(i) a breath test or preliminary alcohol screening test was performed by a person certified by the forensic

HOUSE JOURNAL  
FORTY-FIRST LEGISLATIVE DAY - FEBRUARY 24, 2003

sciences division of the department to administer the test;

(ii) a blood sample was analyzed in a laboratory operated or certified by the department or in a laboratory exempt from certification under the rules of the department and the blood was withdrawn from the person by a person competent to do so under 61-8-405(1);

(c) a report of the facts and results of a physical, psychomotor, or physiological assessment of a person is admissible in evidence if it was made by a person trained by the department or by a person who has received training recognized by the department.

(2) If the person under arrest refused to submit to one or more tests as provided in this section, proof of refusal is admissible in any criminal action or proceeding arising out of acts alleged to have been committed while the person was driving or in actual physical control of a vehicle upon the ways of this state open to the public, while under the influence of alcohol, drugs, or a combination of alcohol and drugs. The trier of fact may infer from the refusal that the person was under the influence. The inference is rebuttable.

(3) The provisions of this part do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, drugs, or a combination of alcohol and drugs."

And, as amended, do pass. Report adopted.

Dear Representative Wanzenried:

Yesterday you asked me what the intentions of the majority are with regard to HB 74. The answer very quickly becomes enigmatic.

It is now apparent to everyone that the vast majority of House Democrats are not, under any circumstances, going to support using the Coal Tax Trust Fund. That being the case, I find myself for the first time this session, asking you to do something and then to get back to me.

Since your caucus finds itself unable to support any use of the Coal Tax Trust Fund, I would ask you, upon return from the coming transmittal break, to meet with me and present your proposals for balancing the 2004-2005 budget. Please provide me with appropriate specifics as to what budget reductions you would recommend, and what revenue enhancements (taxes, transfers, etc.) you would also recommend.

My understanding of a reasonable compromise is as follows: If I take a position at the number one and you take a position at the number ten, the complete compromise is found around five and one-half, not nine and not two.

To return to your original question, what happens to Representative Lewis' HB 74 depends to a large degree upon the quality of your upcoming proposals. HB 74 may be gone, or it could return. I do not know.

I look forward to meeting with you after the transmittal break.

Sincerely,

Doug Mood  
Speaker of the House

The department shall waive the bond requirement of a special fuel user not subject to the provisions of subsection (2)(a) or (2)(b).

(2) The total amount of the bond or bonds required of a special fuel user must be equivalent to twice the special fuel user's estimated quarterly tax payments as provided in this part, determined as the department considers proper; however, the total amount of the bond or bonds may not be less than:
